## PROJECTS

### AI – Based Adoptive Learning Portal

Technologies Used: Artificial Intelligence, React JS, Python, MongoDB.

Hosted on: [www.merishiksha.com](http://www.merishiksha.com)

It is a cutting-edge educational Portal which **Empowers** Learner and Tutor.

- **Learner:** AI Knowledge Gap, AI driven-Lesson Planning, AI Summarizer, AI Lab Assistant, Exercise Generator, AI MCQ Test.
- **Tutor:** Topic Revising assistance, AI Q&A generator, Study Material, MCQ Generator, PPT Content Generator, Flash Cards, Lab Instructor.
- **Carrier Crafting:** AI Mock Interview, AI Job Hunt, AI Language Learning and Accelerator, AI Career Counselling, AI Careers in India.

### AI Tool for Company Secretary

Technologies Used: React JS, AI API Integration.

Hosted on: [www.ai4cs.in](http://www.ai4cs.in)

- Engineered an AI-powered tool tailored for Company Secretaries, streamlining critical workflows with modules like **Compliance Calendar**, **Secretarial Audit**, and **Regulatory Updates**.
- Enabled smart automation for **Statutory Registers**, **Legal Research**, **Legal Opinion**, and **Procedure & Practice**, boosting operational efficiency and simplifying complex documentation processes.

### AI – Based Health Analysis

Technologies Used: OpenCV (Computer Vision), NumPy (Facial Analysis).

It is a health analysis tool using Python that analyzes a 30-second facial video.

- The system uses OpenCV for Video Analysis Frame by Frame.
- Sends it to **Google's Gemini API** for analysis and creates a PDF report.
- It will solve Real world problems and reduces the cost of Lab test.
